

ps. FROCKS

HOW TO TIE GUIDE

BATWING Sleeve Style

Step
1

Start by putting on the dress with the waistband under the bust and the straps over the shoulders widened.

Step
2

Cross the straps at the back.

Step
3

Use the pinch and guide technique, keeping the straps nice and wide while wrapping them around the waist.

Step
4

Finish by wrapping the straps around bodice, keeping them nice and wide and tie to desired spot – front, back or side of frock and make some final adjustments using the pinch and guide technique.

CAP SLEEVE Style

Step
1

Start by putting on the dress with the waistband under the bust and the straps over the shoulders. With the straps over the shoulders, give each one two twists.

Step
2

Pull fabric at top of shoulder to make a little sleeve.

Step
3

Drape fabric over shoulder and tie once.

Step
4

Finish by wrapping the straps around bodice, keeping them nice and wide and tie to desired spot – front, back or side of frock.

Step
5

Make some final adjustments using the pinch and guide technique to complete your look.

CROSS FRONT Style

Step
1

Start by putting on the dress with the waistband under the bust, cross the straps over one another at the chest.

Step
2

Cross them over each other at the back as well.

Step
3

Keep the straps nice and wide while wrapping them around the waist. Wrap the straps around once, or twice from front to back depending on your size and where you wish to tie.

Step
4

Finish by wrapping the straps around bodice to desired tying spot – front, back or side of frock and make some final adjustments using the pinch and guide technique.

HALTER Style

Step
1

Start by putting on the dress with the waistband under the bust and the straps over the shoulders.

Step
2

With the straps over the shoulders, tie both straps into a large knot or bow.

Step
3

Simply make some final adjustments to complete your look!

KEYHOLE Halter Style

Step
1

Start by putting on the dress with the waistband under the bust and the straps over the shoulders.

Step
2

Take the straps and tie in a single knot to finish at your collarbone, don't pull too tight to allow the keyhole look.

Step
3

Put the straps over the shoulders and tie in a single knot at the back.

Step
4

Finish by wrapping the straps around bodice to desired tying spot – front, back or side of frock and make some final adjustments using the pinch and guide technique.

KNOTTED Halter Style

Step
1

Start by putting on the dress with the waistband under the bust and the straps over the shoulders.

Step
2

Take the straps and tie in a single knot to finish at your collarbone

Step
3

Drape the straps over both shoulders and cross over.

Step
4

Finish by wrapping the straps around bodice to desired tying spot – front, back or side of frock and make some final adjustments using the pinch and guide technique.

ONE SHOULDER Cut-Out Style

Step
1

Start by putting on the dress with the waistband under the bust and the straps over one shoulder.

Step
2

Separate the straps so one goes over the shoulder and the other skims below your shoulder blade.

Step
3

Twist straps to desired length.

Step
4

Finish by wrapping the straps around bodice to desired tying spot – front, back or side of frock.

Step
5

Make any final adjustments using the pinch and guide technique.

ONE SHOULDER Style

Step
1

Start by putting on the dress with the waistband under the bust and the straps over one shoulder.

Step
2

Cross straps over at back and separate ready to tie.

Step
3

Finish by wrapping the straps around bodice to desired tying spot – front, back or side of frock.

Step
4

Make some final adjustments using the pinch and guide technique.

SLEEVED Halter Style

Step
1

Start by putting on the dress with the waistband under the bust and the straps over the shoulders. Pull the waistband lower to get a deeper v-neck

Step
2

Pull fabric at top of shoulder to make a little sleeve.

Step
3

Cross straps over at back keeping them nice and wide.

Step
4

Finish by wrapping the straps around bodice, keeping them nice and wide and tie to desired spot – front, back or side of frock and make some final adjustments using the pinch and guide technique.

STRAPLESS Style

Step
1

Start by putting on the dress with the waistband under the bust and the straps over the shoulders. This style works best with a strapless bra.

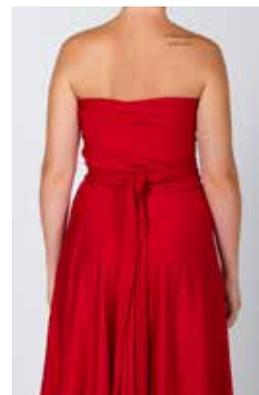

Step
2

Keeping the straps nice and wide while wrapping them over the top edge of the bra or bustline.

Step
3

Wrap each strap around the back and to the front again and guide the straps over and then under the bust to create a sweetheart detail.

Step
4

Finish by wrapping the straps around bodice, keeping them nice and wide and tie to desired spot – front, back or side of frock.

Step
5

Make some final adjustments using the pinch and guide technique.

TWISTED Halter Style

Step 1

Start by putting on the dress with the waistband under the bust and the straps over the shoulders.

Step 2

Twist each of the straps at the bust area. Twist these as low as you wish depending on how much cleavage you wish to show. Twisting the straps inward or outward gives you slightly different looks.

Step 3

Continue twisting the straps together at the back for a roped look.

Step 4

Again twist as many times as you like, depending on what look you are after.

Step 5

Finish by wrapping the straps around bodice to desired tying spot – front, back or side of frock and make some final adjustments using the pinch and guide technique

SCARF Style

Step 1

Start by putting on the dress with the waistband under the bust and the straps over one shoulder

Step 2

Twist the straps around each other from the shoulder.

Step 3

While twisting, wrap the twisted strap around the neck.

Step 4

After wrapping all the way back around the neck, tuck the twisted strap under the other strap.

Step 5

Finish by wrapping the straps around bodice, keeping them nice and wide and tie to desired spot – front, back or side of frock and make some final adjustments using the pinch and guide technique.
